About us

From Heritage to the Future: Sustainable Manufacturingat Verscon

Established in 1993 in Bursa the heart of the textile industry Verscon brings over three decades of deep rooted expertise to the baby and children's ready to wear sector. What began with strong local market partnerships and boutique exports across the Caucasus, North Africa, and the Balkans has evolved into a global manufacturing vision backed by flexible production and logistical mastery.

Industrial Expansion: Our Ağrı Doğubayazıt Facility
To support our sustainable growth, our state-of-the-art facility in Ağrı Doğubayazıt became fully operational in 2025. This strategic investment features:

- 5,000 m² of modern, enclosed production space.
- 200 skilled professionals contributing to regional employment.
- 2 million pieces in total annual manufacturing capacity.

International Standards & Corporate Memberships
We validate our manufacturing discipline, ethical workplace standards, and environmental responsibility through world-class certifications and institutional ties:

- **GOTS** (Global Organic Textile Standard): Guaranteeing organic material integrity and an eco-friendly supply chain.
- **Sedex:** Certifying full compliance with ethical trade, social responsibility, and safe working conditions.
- **Institutional Ties:** Active member of the Bursa Chamber of Commerce and Industry (BTSO) and the Uludağ Exporters' Association (UİB).

Driven by our rich heritage, advanced infrastructure, and high manufacturing volume, Verscon is fully equipped to shape the future of children's fashion on a global scale.

Performance and Comfort in Children's Fashion: Casual, Functional & Technical

At Verscon, we offer high performance children’s outerwear collections across three distinct segments: Casual, Functional, and Technical, designed to ensure maximum freedom of movement and comfort. With our advanced manufacturing infrastructure, we stand as the most reliable solution partner for global brands.

Our Product Groups

- **Rainwear:** Protective, lightweight designs featuring water-repellent, windproof, and breathable fabric structures that never restrict movement.
- **Coats & Jackets:** Winter outerwear engineered with durable materials, ergonomic fits, **and functional pockets for maximum thermal insulation.**
- **Tracksuits:** Essentials for casual wear, offering maximum daily comfort with breathable, cotton-rich, and flexible fabrics.
- **Seasonal Outerwear: Lightweight jackets, vests, and overshirts tailored to shifting transitional weather.**

Purpose-Driven Fabric & Performance

Prioritizing children’s sensitive skin, our technical fabric solutions offer:

- Water & Wind Resistance: Full protection against harsh weather conditions.
- Breathability: Moisture-controlling inner linings to prevent sweating and overheating.
- Durability & Lightness: Abrasion-resistant yet lightweight fabrics that allow kids to play freely.

Customized Manufacturing & Design Services (OEM & ODM)

We combine Verscon’s industrial manufacturing power with your brand identity:

- Private Label (OEM Manufacturing): Production tailored entirely under your brand name, adhering strictly to your corporate standards, labeling, and packaging specifications.
- Custom Design Services (ODM Collection Development): Developing collections from scratch tailored to your target audience, leveraging our trend forecasts, technical drafting expertise, and pattern archive.

With our high production capacity and technical expertise, we are ready to empower your brand in the children's outerwear category.

Crafted with Nature and Purity: Baby Clothing Manufacturing

At Verscon, we prioritize purity, safety, and functionality in our baby clothing line, offering a wide manufacturing range from the newborn stage onward. With our world-class production line, we stand as the most dedicated manufacturing partner for global mother and baby brands.

Our Product Groups

- **Newborn Sets:** Hospital discharge and first day sets with soft seam sensitivity for essential early-day comfort.
- **Bodysuits & Rompers:** Core daily wear with easy dress necklines, practical snap buttons, and ergonomic fits.
- **Sleepwear Sets:** Comfortable pajama sets designed to maintain ideal body temperature throughout the night.
- **Blankets:** Soft, breathable, and anti-allergic knitted, muslin, and welsoft blankets.
- **Dresses:** Adorable baby fashion featuring non irritating linings and natural details.
- **Post-Bath & Beachwear:** High absorbency ponchos and drying wraps to keep babies warm after a bath or swim.

100% Natural Fibers & Safety Standards

Placing health at the core of our manufacturing philosophy, we guarantee:

- 100% Natural Fibers: Organic cotton and bamboo fabrics that are exceptionally gentle and highly breathable.
- Certified Supply Chain: Materials sourced from trusted partners meeting international quality standards, backed by safety testing at every stage.

Certificates: GOTS & SEDEX (Presented upon request)

Customized Manufacturing & Design Services (OEM & ODM)

Our comprehensive Private Label (OEM) and Custom Design (ODM) services detailed in our Outerwear section are applied here with the extra precision required for baby health regulations and safety-tested patterns optimized for baby anatomy.

With our high production capacity and commitment to safety, we are ready to empower your brand in the baby wear category.

Why Source From Us?

· **Zero Customs Duty:** Enjoy 0% customs duty imports to the **EU**, the **UK**, the **EFTA zone**, and the **Balkan region**, backed by comprehensive **Free Trade Agreements.**

· **Rapid Lead Times:** Say goodbye to lengthy Far East transit times. Benefit from a fast, reliable delivery network reaching your doorstep.

· **Reduced Inventory Risk:** Thanks to quick production and shipping cycles, you don't need to tie up capital in massive stock, allowing for smarter cash flow management.

· **Premium Quality Standards:** Certified, eco-friendly, and safe production power that respects both human health and environmental standards.

· **Streamlined Customs & Hassle-Free Documentation:** With international movement certificates such as A.TR and EUR.1, your customs clearance processes are completed smoothly and quickly, bypassing bureaucratic delays.

As your ideal manufacturing partner, we eliminate borders and tariffs to help you scale your collections effortlessly.
